

This is a cross-reference list for entering your horses at NAN. It will tell you how a breed is classified for NAN so that you can easily find the correct division in which to show your horse. If your breed is designated "other pure," with no division indicated, the NAN committee will use body type and suitability to determine in what division it belongs.

Note: For the purposes of NAN, NAMHSA considers breeds that routinely fall at 14.2 hands high or less to be ponies.
